PEER TO PEER MENTORSHIP PROGRAM

SOMETIMES THE BEST SUPPORT COMES
FROM SOMEONE WHO HAS BEEN THROUGH
A COMPARABLE EXPERIENCE.

Our Peer to Peer Program matches patients newly diagnosed or currently in treatment with patients having similar diagnoses and comparable experiences who have completed treatment and wish to offer personal, one-on-one mentorship.

Our volunteer mentors have had training and are supported by our Abramson Cancer Center Social Work and Survivorship Staff.

Mentors are currently available to support patients with head and neck, prostate, and rectal cancers, as well as breast and gynecological cancers.

**IF YOU WOULD LIKE TO BE MATCHED WITH
A PEER MENTOR, PLEASE CONTACT**
