

March 2022

It's hard to believe that we are facing the two-year mark since the COVID-19 pandemic began. Through it all, our resilience and extraordinary efforts have been defined by our Health Care Heroes. Each year, we celebrate National Doctors' Day, March 30, and National Nurses Day, May 6 – a perfect time to honor the outstanding work of our Chester County Hospital team members. As healthcare professionals, we made the commitment to serve our community – of course, we did not expect to be responding to a once a century pandemic while navigating the largest expansion project in the hospital's history, however, we have risen to the challenge.

The spring season signifies a time for renewal, growth, and a re-energized focus on the future. Chester County Hospital's expansion has opened the door for many exciting advancements, including cutting-edge cardiovascular procedures (TAVR and transfusionless heart surgery), state-of-the-art orthopaedic techniques, and the development of the new Breast Health Center at The Abramson Cancer Center at Chester County Hospital.

**Now, more than ever, philanthropic support is central to the programmatic growth within our clinical specialties. With innovative new treatment options and leading edge technology, Chester County Hospital continues our mission to bring world class healthcare to our community while providing compassionate, patient-centered care.**

It has been an unprecedented time in healthcare in general, but also for our community in particular. The pandemic has not yet abated, and now we face another significant challenge with the recent closures of two nearby hospitals. Our Executive Leadership Team is working diligently to execute strategic plans and create proactive solutions as we absorb these variations in our market. The recent completion of our Emergency Department renovation and expansion is certainly well-timed to help navigate these changes.

It is embedded in our culture to treat every patient who walks through our door as our family, friend, or neighbor and this will remain steadfast as we adapt and adjust to the new healthcare realities surrounding our community. Chester County Hospital is ready for when you and your loved ones need us most.

This spring, please consider making a gift in honor of your Health Care Heroes along with a note of gratitude – your sentiments are shared with the team and are especially meaningful during this challenging time. Thank you for your continued support of Chester County Hospital.

Sincerely,

Michael J. Duncan  
President & CEO

Chester County Hospital, which is part of Penn Medicine, is a non-profit organization dedicated to the health and well-being of the people of Chester County and surrounding areas. Our team is grateful to the generous donors and volunteers whose philanthropic nature and commitment to quality health care helps sustain the charitable mission of the hospital.

The Foundation was created in 1983 to support Chester County Hospital. Gifts to The Chester County Hospital Foundation have an immediate impact on our community's health and well-being. It is Chester County Hospital's Vision to be the leading provider of care, in the region and a national model for quality, service excellence, and fiscal stewardship. Donor support for the hospital has helped us invest in people, programs, cutting edge technology, and state-of-the-art facilities. Exciting advances in patient care continue as we make forward-looking commitments to future care initiatives.

Chester County Hospital provides quality medical and nursing services regardless of an individual's source of income or source of payment. The hospital is committed to serving all members of its community. In addition, the hospital provides health activities and programs to support the community. These activities include wellness programs, community education programs and specialty programs for the elderly, medically underserved, and a variety of broad community support activities.

#### OTHER WAYS TO GIVE:

- I have included Chester County Hospital in my estate plans.
