

Instructions to download and install Zoom App to iPhone and iPad

To use Zoom from an iPad or smart phone, you will need to download the Zoom App from the App Store on your device. Android process should be similar but these instructions and screen shots are for an iPhone—iPad should be nearly identical.

1

Find the App Store on your device

2

Enter "Zoom App" in the search bar

3

Choose Zoom Cloud Meetings from the choice of Apps presented from your search

Click Get

4

Click Install

5

Your device may be set up to require a password for downloads from the App Store. If so, enter your password. *If you are not set up to require password for downloads, you will bypass this screen.*

6

Click Open

7

Open your email and find the email from the meeting coordinator. **Click on the web address below**
Join Zoom Meeting

8

You will be prompted to enter your name. **Enter first and last name**—this is how the coordinator will know everyone's name who enters the meeting. Then **click Continue**.

9

Zoom will ask for access your camera. **Click OK** so that the video works.

10

Click Join with Video

11

Zoom will ask to access the microphone. **Click OK** so that the coordinator can hear you speak.

12

Click Call using Internet Audio to hear others speak. **Click Join with Video again.**
