

Fundraising Total in Fiscal Year 2024

\$7,941,890

through the generosity of 2,551 community donors

The collective support from our generous donors has helped us grow and continue to elevate the level of care we provide to our patients. From specialized equipment, to expanded patient services, and innovative technology - here are some of the many ways your gifts made an impact at Chester County Hospital.

Behavioral Health – Patients with behavioral health needs have more than doubled since 2020. Our Behavioral Health Department was built to meet the surging needs. Donor support has provided key resources to implement the greatest level of patient safety in our Emergency Department and the safe transport of our patients to Haven Behavioral Hospital.

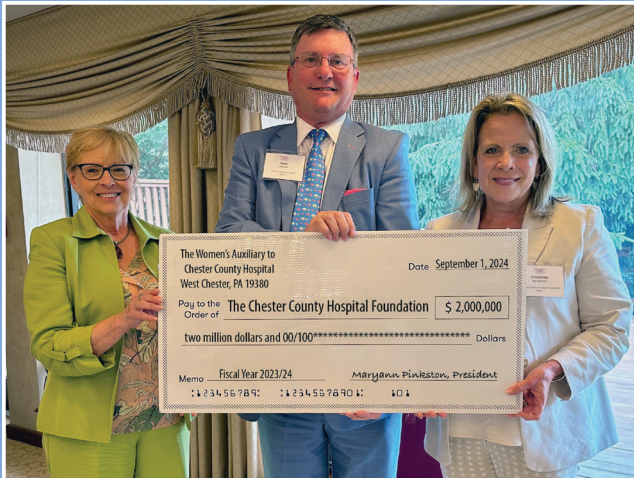

Maternity Department – Birth rates have increased by over 10% at CCH. Donor funds supported the need for additional equipment, including an operating table in our labor and delivery unit, as well as two additional Giraffe OmniBed care stations in our NICU. The opening of the fully renovated OB/GYN Clinic was also made possible through philanthropic support.

Abramson Cancer Center – Generous contributions have helped make significant strides in expanding research studies and clinical trials for various cancers including lung, breast, ovarian, and colon cancers. Donor support also funds vital patient support services provided through our SHiNE program.

Nursing Excellence & Education – Donor funds help provide ongoing support and valuable resources for our award-winning nursing staff, as well as support nursing education through our Nurse Extern program. CCH has attained Magnet® recognition for the third consecutive time, the highest national honor for professional nursing practice, as well as the Emergency Nurses Association Lantern Award.

The Women's Auxiliary to Chester County Hospital has completed their \$2 million pledge toward the Breast Health Center.

The pledge will support the hospital's vision to bring together the most state-of-the-art services in diagnostics, treatment, and academic advancements in breast health and cancer care. Many thanks to our dedicated volunteers, community sponsors, and everyone who participated in our fundraising events to benefit Chester County Hospital!

The campaign for the expanded cancer center with integrated Breast Health Center is underway and will require bold philanthropy from our community. Help us make an even greater impact this year! Your support will help lead the way in advancing high-quality, patient-centered care right here in Chester County.
